

# Londa Mngadi

[github.com/Londa-LG](https://github.com/Londa-LG)  
mngadilg@gmail.com

Motivated Computer Science student nearing graduation. Skilled in Python and Java, with a solid foundation in both front-end and back-end development. Familiar with frameworks like Django, FastAPI. Adept at problem solving, collaborating and building scalable web applications.

## Projects

### SQLiteViewer — [Github](#)

Python, Tkinter

A GUI database viewer built to make troubleshooting future desktop projects easier.

### Self-Care — [Github](#)

Python, Django

Skin care blog. I built this to use as a reference project for building a web application with django.

### Muscle cultivator API — [Github](#)

Python, FastAPI

Web API for a fitness tracking desktop application I'm working on..
